ACGME has challenged the GMEC world by changing requirements, procedures and forms. Revitalize your GMEC to meet that challenge!

Here are ten tips to help you breathe new life into your GMEC's operations:

**Tip #1 - REALLY revise policies and processes.** Don't just rewrite forms. Take this opportunity to make them meaningful.

**Tip #2 - Expand GMEC's resources** through effective subcommittees and inclusion of non-GMEC participants.

**Tip #3 - Conduct regular educational sessions** for the GMEC. The role is more enjoyable once it is fully understood.

**Tip #4 - Develop GMEC Orientation** for new members.

**Tip #5 - Encourage the resident members'** active participation. They add fresh vision every year!

**Tip #6 - The DIO/GMEC collaboration** is a powerful partnership. Do not underestimate its effectiveness!

**Tip #7 - Refine your internal review process.** Reward the time and effort with tangible benefits to the programs.

**Tip #8 - Ask the Residency Programs** what GMEC can do to help them improve education!

**Tip #9 - Make development of an effective DIO** an institutional priority.

**Tip #10 - Be innovative.** Don't be just another committee that keeps minutes and wastes hours.
